The Seniors got their last year started even before the first of September. On August 27th, they went to Leah Callery's to dye their white tees...and hair and legs and hands and arms. But even though the dye came off (after much scrubbing), they will always have their memories of that day and the rest of Senior Year.

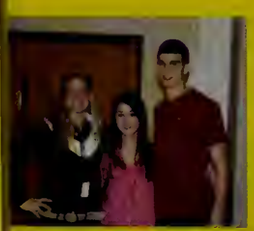
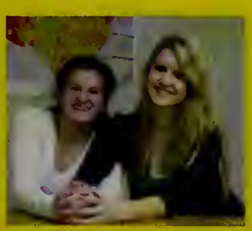
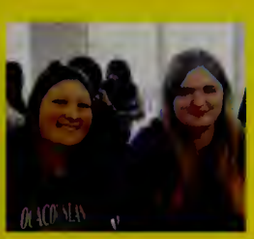
.sn't it great to be #1 twice?







Q&A with Mr. Smith

Q: In your opinion, what is the legacy that the Class of 2011 leaves behind?

A: They leave behind a legacy of teamwork and support for one another. They were the first class to have sporting events under the lights on the turf.

Q: What is your favorite part about being the Principal at WHS?

A: The students. I love to see the student body engaged in academic and extracurricular activities. Holding conversations about school or life in general is a real pleasure for me. The students are the life blood of this community.

Q: Which teacher makes you laugh the most?

A: Mr. Rota. He is still a kid at heart and loves to pull pranks on the faculty. You have to have humor in our line of work.

Q: If you could describe the Class of 2011 in three words, what would they be?

A: Spirited, curious, and dedicated.

Q: What is your favorite memory from the Class of 2011?

A: When they came in as freshmen the same year I arrived. I feel a special bond with this group of students. We all became Rangers the same year.

Q:If you could take any course at WHS, which would you take?

A: Anatomy and Physiology with Mr. Fontaine. Despite dissecting cats, I think this course is fascinating and Mr. Fontaine makes it both challenging and enjoyable.

Q: What sports would you play if you were a student?

A: I would try to play football, basketball, and baseball again. Basketball was my favorite to play in high school.

Q: What were you like in high school?

A: I was class president and played three sports. I went to a small school, so I had opportunities to participate in many things.

Senior Class Officers

Class of 2011,

Our years in the Westborough school system are over. They are finally over. They are *actually* over. And it's bittersweet to know that we won't all be together again. Whether you've moved here somewhere in between the diaper days and the tossing of our graduation caps or have been here from the start, there is something that each of us will all take away from the "Bubble". But don't leave childhood behind to reinvent yourself. With every place that you go, with every dream that you follow, and with every pain that you endure, you rediscover a new part of yourself. We have all changed through the years and will all continue to change as the years pass us by, but underneath it all there is still that five year old little kid. And here is something I've realized that textbooks do not include and labs can not teach: That just because I'm breathing doesn't mean I'm living. I hope we all move forward with lives full of love and family, brimming with laughter- because sometimes it's not just about achieving a dream, but sharing that dream. As Abraham Lincoln said, "And in the end, it's not the years in your life that count. It's the life in your years." So good luck to everyone and thanks for being such wonderful people.

Sincerely,
Diana Zeng

I wanted to try and say something profane —I mean profound, But this is all I could come up with: You may not know me Like me or not. You must admit, your attention has been caught! You never know where the next miracle is going to come from- the next smile, the next wish come true. The last 4 years in WHS have been a great experience. Coming here from another country so young and not knowing any English, had a huge effect on me and learning what I know was a huge part of my life, for that I am grateful. Know that the wise man knows that he knows little: you can never know everything or even come close to knowing everything.

Always look at something from more than one perspective: the partisan view is never as complete as the full. A tree that is unnoticeable may be the most beautiful sight when examined closer or from a different angle.

A Note From the Editors...

To Everyone at Westborough High School,

Here it is, your 2010-2011 Yearbook! We hope each and every page brings back memories from throughout high school. It has been our pleasure to dedicate so much time and effort into the collaboration of this yearbook. In thirty years, we believe that this book will remind you of the awesome experience that you had walking these halls so young and carefree.

None of this could have been possible without our enthusiastic yearbook representative Susan Happel and our supportive adviser Mrs. Costa. Without Mike Kelly's impressive photography and Zach Hoban's fabulous cover design, the yearbook would not be complete. The guidance secretaries could not have been more helpful with providing us essential information about this year's student body. And a last big thanks to all the WHS parents who submitted so many pictures, supported the yearbook financially, and help us create the masterpiece of this yearbook.

Good luck to the seniors who will be leaving this school and to the underclassmen who will continue on at WHS.

Love,
Diana Zeng and Megan Collins

Friday Night Lights

For the first time in Westborough High School's history, the turf, Mewhiney Field, had lights for one week. Field hockey, girls and boys soccer, and football each played a game under the lights. The week showed our great school spirit and was fun for all the students!

You have and continue to fill my life with joy and wonder. For all we have travelled through...first a boys hand held mine and he thought I knew everything & had all the answers... and then a young man appeared and understood that his Mom didn't always have all the answers, but she knew enough to raise a kind, caring, strong incredible young man who she is confident will accomplish all that he sets his mind and heart to do.

I wish for you "only everything"!

My pride and love go with you no matter how far you may travel.
All my love forever, *Mum*
